

MARYLAND DEPARTMENT OF TRANSPORTATION STATE HIGHWAY ADMINISTRATION
NOTICE OF OPPORTUNITY FOR PUBLIC COMMENT
MD 413 at Tulls Corner Road Geometric Improvements Project

The Maryland State Highway Administration (SHA) is proposing geometric improvements at the intersection of MD 413 and Tulls Corner / Charles Cannon Roads in Somerset County. Work will consist of widening the northbound roadway to allow for a dedicated right turn onto Tulls Corner Road and an acceleration lane from Tulls Corner Road onto MD 413, improving stormwater management and drainage facilities, relocating utility poles and installing new signage and pavement markings. All work will be done with shoulder and lane closures, and traffic will be shifted when possible to maintain one lane in each direction at all times. All work will occur within the existing SHA and MTA right-of-way.

This project is partially located within the Critical Area for Atlantic and Coastal Bays and will require approval by the Critical Area Commission.

Any person wishing to request information regarding the Critical Area impacts, or submit written comments on the proposed project, may do so by contacting the project representative. All comments concerning the Critical Area impacts must be received by SHA in writing no later than May 31, 2016.
