

BCS 2022-09

**Planning, Engineering, Construction Management and Program Support Services, Statewide
Pre-Proposal Meeting Transcription**

Microsoft Teams – Wednesday, August 3, 2022 at 10:00am EST

0:0:0.0 --> 0:0:2.260

Catherine Agostino

Alright, good morning everyone. I appreciate.

0:0:2.220 --> 0:0:21.730

Alex Webb

Delete all of you attending this morning and for your interest in BCS 2020 209 planning engineering, construction, management program, support services statewide for the Maryland Department of Transportation, State Highway Administration. My name is Alex Webb. I'm the deputy director and the Office of Procurement and Contract management.

0:0:22.700 --> 0:0:27.550

Alex Webb

And today, we're gonna be conducting our pre proposal meeting for this procurement.

0:0:28.780 --> 0:0:35.910

Alex Webb

As a reminder, please maintain your mute button until you are called upon to speak.

0:0:36.590 --> 0:0:43.840

Alex Webb

And at this time, I will invite McCall, who is our procurement officer, who's gonna be leading this discussion. Thank you.

0:0:46.640 --> 0:0:48.960

Catherine Agostino

Thank you, Alex. Good morning, everyone.

0:0:48.930 --> 0:1:5.60

Macall Davis

One and welcome to the virtual pre proposal meeting for BCS 2020, 209 Planning Engineering management and Program Support services statewide. As it states on the screen, please be advised this pre proposal meeting is being recorded.

0:1:5.740 --> 0:1:37.730

Macall Davis

My name is Michael Davis. I am the project procurement officer and pre proposal meeting facilitator. Joining me today are Alex Webb O from the Office of Procurement and Contract management, Catherine Augustino who is m.sh, a project manager for this procurement, Lisa Grant who is the administrator in m.sha's office of Equal Opportunity as they may relate to the current solicitation for services Alex Webb and I will be addressing any questions on the procurement process.

0:1:38.170 --> 0:1:47.30

Macall Davis

Catherine will assist with questions regarding the project scope and Lisa will address any questions related to disadvantaged businesses and enterprises.

0:1:48.0 --> 0:2:14.780

Macall Davis

Compliance and participation before we we begin, I need to address some ground rules for this virtual meeting. First, please make sure you are always muted unless asking a question. Second, please use raise your hand to request the floor for question and wait to be called on before speaking. Finally, please speak your name and company when called on to the floor for a question.

0:2:16.350 --> 0:2:46.480

Macall Davis

This meeting is scheduled for an hour and we will make sure as much as possible that everyone gets the opportunity to speak and have their questions answered. If we are not able to answer all questions within the allotted time frame or you think of additional questions for the following, the conclusion of this meeting, you may send those questions to E Maryland marketplace advantage discussion question and answer board and they will be included in the in the solicitation amendment to be published via.

0:2:46.560 --> 0:2:59.860

Macall Davis

Emma the week of August 17th, 2022, the purpose of today's meeting is to give information to potential offers on the requirements of the solicitation. Are answers provided at this meeting.

0:3:0.880 --> 0:3:25.110

Macall Davis

Are considered preliminary and for discussion purposes only. I need to emphasize that any and all questions, including those asked at this meeting, must be submitted in writing to E Maryland marketplace advantage per the admin, the advertisement in order to receive a formal written response.

0:3:25.840 --> 0:3:26.750

Macall Davis

Important dates.

0:3:27.570 --> 0:3:41.810

Macall Davis

The last day for written question is August 17th 2022 by 12:00 PM. Please get any questions for which you want a formal written response into Emma's discussion discussion Q&A board at E.

0:3:42.880 --> 0:3:54.490

Macall Davis

Andma.marylandspelledout.gov by this deadline, no further questions will be accepted after that date, August 17th, 2022.

0:3:56.460 --> 0:3:56.820

Macall Davis

Request.

0:3:56.640 --> 0:3:58.690

Catherine Agostino

Quest for technical proposals are.

0:3:58.680 --> 0:4:15.220

Macall Davis

Do by noon on September 14th, 2022, as stipulated in this project. Advertisement Only digital submittals in Emma by the deadline will be accepted. Late proposals will not be considered. No exceptions.

0:4:16.810 --> 0:4:23.920

Macall Davis

M.sha issued this with the solicitation for request for technical proposals.

0:4:24.750 --> 0:4:39.30

Macall Davis

BCS 2020 209 Planning Engineering management and Program Support services statewide on July 21st, 2022. As stipulated M dot SHA may award up to three contracts for five years.

0:4:39.650 --> 0:5:2.460

Macall Davis

Duration with the projects total cost not to exceed \$225 million and that is a reserved the right to modify the number of contracts and the total funding authority. The project will be funded by both the state and federal funds and has a 28% disadvantaged business enterprise participation goal.

0:5:3.130 --> 0:5:20.980

Macall Davis

The service is on the discount. This BCS will include comprehensive engineering, including preliminary design and final design, project management, construction, engineering, inspection and management services, maintenance and operation services.

0:5:21.910 --> 0:5:31.540

Macall Davis

Environmental study, preparation, review and oversight, including national Environmental Policy Act, NEPA, process tracking of environmental.

0:5:32.420 --> 0:5:58.710

Macall Davis

Commitments and major project requirements, public communications and engagement services, including meeting felicitation and consensus building, engineering estimates, design and construction, including labor, equipment, and material based contractor estimates, traveling, forecasting, traffic, engineering services, structure engineering, review and design, structural condition and inspection services, professional services.

0:5:59.780 --> 0:6:31.850

Macall Davis

Program development DBE slash OJT slash EO monitoring information collecting and reporting workforce utilization and contractor compliance guidance, support services and training programs. Geotechnical design and exploration, pavement design and testing, and soil testing services, sub service, utility exploration and utility design services, water resources review and analysis and concept design. Delegated review and permitted services survey and data collection services landscape.

0:6:31.970 --> 0:6:37.90

Macall Davis

Architecture services, independent auditing and quality assurance services.

0:6:37.710 --> 0:6:38.730

Macall Davis

Tolling services.

0:6:39.440 --> 0:6:41.770

Macall Davis

Preparation review of investment.

0:6:42.450 --> 0:6:53.480

Macall Davis

Gray traffic and revenue analysis and study services for the purpose of this contract. Again, a goal of 28% has been established for the DBE participation.

0:6:56.500 --> 0:6:58.610

Catherine Agostino

Proposes must meet the goal.

0:6:58.680 --> 0:7:29.930

Macall Davis

Either by utilizing their own forces or approved subcontractors, because this project utilizes federal funds, approved subcontractors must be certified as disadvantaged business enterprise by M dot information on the certification process may be obtained online at [HTTPS. Marilyn mdhe.mbecert.com](https://marilyn.mdhe.mbecert.com) and disadvantaged business. It linked to the directory of [m.certifiedfirms](https://m.certifiedfirms.com) is located on this.

0:7:30.0 --> 0:8:0.340

Macall Davis

M.website, DBE firms must be certified for the specific work to be performed to count their participation to was meeting the projects DBE participation goal and the request for the technical proposals should list only makes 6 codes applicable to that specific work. DBE firm is proposed to perform DBE firms must be certified by M dot in those next codes at the time of the RFP submittals and remain certified.

0:8:0.470 --> 0:8:19.30

Macall Davis

Peru contract award when DB firms participate on a contract as a prime, including a prime in a joint venture that certified, DBE may count up to 10% of the work it performs when it owns forces towards fulfilling the contracts DBE participation goal.

0:8:20.0 --> 0:8:24.470

Macall Davis

Regarding DBE documentation, requirements of the solicitation consultants who submit.

0:8:24.790 --> 0:8:39.990

Macall Davis

Expo request for technical proposals must set forth in the required SF 3:30 form in part one of Section C

of the DBE prime firms and DBE subcontractors proposed for gold attainment. Required information includes.

0:8:43.900 --> 0:8:44.220

Catherine Agostino
Right.

0:8:44.860 --> 0:8:46.530

Catherine Agostino
Firms names and.

0:8:46.490 --> 0:8:52.440

Macall Davis
Dress description of purpose of work, percentage of total work forms, m.cert number and applicable NAICS codes.

0:8:54.130 --> 0:8:55.100

Macall Davis
Proposed soft.

0:8:55.940 --> 0:9:26.230

Macall Davis
Participation percentage must also be designated on the SF330-C. Proposals are also required to designate the name, address, and work description and percentage of total work for non DBE subcontractors in the SF330-C and contact information to propose. This must also designate the name and contact information of the DE Consultant Liaison Officer for minority in affairs in the sub transmittal letter for you to submit all required B information in the area specified. The result and consultant being disqualified from further consideration for reduce candidate list.

0:9:26.310 --> 0:9:39.960

Macall Davis
Unless it is the best interest of the state to seek clarification or additional information from the consultant at this time, I'm opening the floor to questions. Please state your first and last name before stating your question.

0:9:40.930 --> 0:9:57.900

Macall Davis
Are there any questions at this time? I will also, before we begin to answer questions, I like to iterate that all questions require a formal response, must be submitting in writing to Emma discussion Q&A board at emma.maryland.gov. Thank you all for attending.

0:10:5.480 --> 0:10:7.630

Catherine Agostino
Thank you for call. And as a reminder.

0:10:7.940 --> 0:10:18.980

Alex Webb

We have a lot of participation or a lot of participants in this meeting this morning. For those of you who may be new to teams and the top right hand corner of your screen, there is a reactions.

0:10:20.890 --> 0:10:30.190

Alex Webb

Icon that allows you to raise your hand and will help us facilitate any questions that way. So again, feel free to raise your hand and we'll call upon you to to ask questions.

0:10:47.560 --> 0:10:49.830

Catherine Agostino

I'll start with clean stream.

0:10:50.260 --> 0:10:53.850

Alex Webb

LC. Yes, hello. This is Alexi with clean stream.

0:10:53.990 --> 0:10:55.40

Clean Streams LLC (MBE DBE SBE) (Guest)

I'll see how are you.

0:10:56.110 --> 0:11:5.520

Clean Streams LLC (MBE DBE SBE) (Guest)

Great. How are you? I'm fine. Thanks. Hey, how is this different than the current process that's taking place with Transurban and their team?

0:11:7.630 --> 0:11:9.650

Clean Streams LLC (MBE DBE SBE) (Guest)

It seems like a parallel process.

0:11:15.440 --> 0:11:17.30

Catherine Agostino

I'm not sure I understand your question.

0:11:17.90 --> 0:11:17.550

Alex Webb

That's right.

0:11:19.650 --> 0:11:20.660

Alex Webb

Can you comment on that?

0:11:23.940 --> 0:11:27.810

Catherine Agostino

I I'm not sure that I understand fully. Can you be more?

0:11:28.620 --> 0:11:31.260

Catherine Agostino

A specific sure is this not a.

0:11:31.700 --> 0:11:36.580

Clean Streams LLC (MBE DBE SBE) (Guest)

Similar to the process is happening for enlargement of 495 and 270.

0:11:40.90 --> 0:11:40.460

Clean Streams LLC (MBE DBE SBE) (Guest)

It is.

0:11:40.450 --> 0:11:41.500

Catherine Agostino

These contracts.

0:11:42.840 --> 0:11:49.420

Catherine Agostino

Will support the administration and the office of the I-495, and she's I270P3 office.

0:11:51.280 --> 0:11:56.260

Catherine Agostino

With engineering and program support and construction management services.

0:11:58.260 --> 0:11:59.800

Catherine Agostino

As the project moves forward.

0:12:0.790 --> 0:12:2.680

Catherine Agostino

OK, because this says that it's that.

0:12:2.760 --> 0:12:7.990

Clean Streams LLC (MBE DBE SBE) (Guest)

You'll be reporting directly to P3, which is what what caused a limit of confusion.

0:12:9.420 --> 0:12:13.230

Clean Streams LLC (MBE DBE SBE) (Guest)

Since I thought that team was about to be chosen as part of the.

0:12:14.770 --> 0:12:19.670

Clean Streams LLC (MBE DBE SBE) (Guest)

It's part of the big process for that, for the, for the PC, for the P3 process.

0:12:23.180 --> 0:12:24.100

Clean Streams LLC (MBE DBE SBE) (Guest)

Yeah, that's the.

0:12:24.180 --> 0:12:32.370

Catherine Agostino

So the phase developers processes concurrent for the design and construction of the project. OK, thank you so much.

0:12:34.760 --> 0:12:37.190

Clean Streams LLC (MBE DBE SBE) (Guest)

Thank you. Next we have sea.

0:12:37.230 --> 0:12:44.260

Alex Webb

And 12358. Remember that is good morning by yourself.

0:12:44.960 --> 0:12:47.400

Alex Webb

Good morning. This is Carolyn Mitchell with Carol.

0:12:47.350 --> 0:12:52.330

cm12358

When Mitchell PLA, I don't know why I'm showing up with that strange code, but my question.

0:12:53.500 --> 0:12:59.10

cm12358

My question is, will you be distributing a sign in sheet for this?

0:13:0.580 --> 0:13:5.470

cm12358

With contacts for all of the participants to facilitate teaming.

0:13:6.440 --> 0:13:9.830

cm12358

For particularly small business, DBE.

0:13:11.890 --> 0:13:13.660

cm12358

We are gonna be taking attendance.

0:13:13.710 --> 0:13:16.780

Alex Webb

But do not have plans and distribute that at this time.

0:13:21.0 --> 0:13:21.680

Alex Webb

Hey, thank you.

0:13:23.670 --> 0:13:24.120

Alex Webb

Pleasure.

0:13:26.110 --> 0:13:29.910

Alex Webb

Janice banks. Ohh hi, that was. Thank you.

0:13:29.890 --> 0:13:38.340

Janice Banks

This is Janice banks with small planet words ADBE. And we also want to have the same question about.

0:13:39.800 --> 0:13:51.220

Janice Banks

About distribution of the sign in sheet because we'd like to partner, especially around the DBE participation and our community engagement stakeholders.

0:13:52.200 --> 0:13:54.60

Janice Banks

And the planning aspects so.

0:13:55.80 --> 0:13:55.640

Janice Banks

How?

0:13:56.960 --> 0:13:58.530

Janice Banks

Please could you reconsider?

0:13:59.360 --> 0:14:3.110

Janice Banks

I'm sending or distributing the sign in sheet.

0:14:5.210 --> 0:14:8.630

Janice Banks

It's important for for small businesses who want to team.

0:14:11.300 --> 0:14:11.760

Janice Banks

Agree.

0:14:15.60 --> 0:14:16.850

Janice Banks

Thank you. Thank you.

0:14:17.820 --> 0:14:19.370

Alex Webb

Hi, this is Jada, right.

0:14:19.470 --> 0:14:25.360

Jada Wright

Umm, procurement director at State Highway, yes, we we will reconsider that and release it as soon as possible.

0:14:26.400 --> 0:14:27.290

Jada Wright

Thank you.

0:14:31.330 --> 0:14:33.600

Jada Wright

Next we have Chris McGuire.

0:14:38.580 --> 0:14:40.760

Alex Webb

Good morning, though. Yeah, Chris McGuire with the ecom.

0:14:41.320 --> 0:14:43.460

McGuire, Chris

Is that a question on page 20?

0:14:44.210 --> 0:14:45.900

McGuire, Chris

On the RFP.

0:14:47.60 --> 0:14:47.940

McGuire, Chris

It mentions.

0:14:48.900 --> 0:14:50.400

McGuire, Chris

Involved in open discussion.

0:14:51.160 --> 0:14:52.910

McGuire, Chris

And wasn't clear to me if there was a.

0:14:54.210 --> 0:14:58.900

McGuire, Chris

Time allotment for Q&A and open discussion within the two hours. Or if that's beyond.

0:15:00.560 --> 0:15:01.670

McGuire, Chris

And if there is a Q&A?

0:15:11.950 --> 0:15:12.820

McGuire, Chris

I'm sorry, can you?

0:15:13.670 --> 0:15:14.910

McGuire, Chris

Can you restate your question?

0:15:16.900 --> 0:15:20.150

McGuire, Chris

Sure. For the oral presentation, it's a 2 hour time frame.

0:15:21.160 --> 0:15:24.730

McGuire, Chris

Don't the 2nd to last bullet mentions open discussion.

0:15:26.600 --> 0:15:28.650

McGuire, Chris

So I was not sure if that was.

0:15:29.460 --> 0:15:33.720

McGuire, Chris

Q&A Open discussion session within the two hours or beyond.

0:15:34.370 --> 0:15:38.100

McGuire, Chris

And if we were to allocate time for Q&A and open discussion.

0:15:39.30 --> 0:15:40.500

McGuire, Chris

How much time should we allot?

0:15:44.630 --> 0:15:45.960

McGuire, Chris

Catherine, can you take that one?

0:15:49.970 --> 0:15:50.690

Alex Webb

Yeah, the oral.

0:15:50.640 --> 0:15:52.710

Catherine Agostino

Presentation total of two hours.

0:15:53.50 --> 0:15:53.640

Catherine Agostino

Umm.

0:15:55.310 --> 0:15:58.610

Catherine Agostino

I will have to consider your question about the Q&A.

0:16:2.600 --> 0:16:3.800

Catherine Agostino

And respond accordingly.

0:16:8.170 --> 0:16:9.870

Catherine Agostino

Thank you, pat.

0:16:9.860 --> 0:16:10.450

Alex Webb
Martin.

0:16:17.880 --> 0:16:19.950

Alex Webb
The scope of services I didn't specifically.

0:16:19.980 --> 0:16:26.300

Pat Martin
See CPM review for Claims Analysis review listed as a as a.

0:16:27.300 --> 0:16:30.560

Pat Martin
In the scope, I was wondering if that is part of the scope.

0:16:34.350 --> 0:16:36.780

Pat Martin
And I also would request the copy of the.

0:16:37.530 --> 0:16:38.700

Pat Martin
For 10 days would be helpful.

0:16:42.980 --> 0:16:45.320

Pat Martin
Thank you. Catherine, can you take that one?

0:16:47.40 --> 0:16:47.330

Alex Webb
Yes.

0:16:47.310 --> 0:16:50.910

Catherine Agostino
That's the that's scope is included. I will clarify.

0:16:54.470 --> 0:16:54.980

Catherine Agostino
Thank you.

0:16:56.500 --> 0:16:58.230

Catherine Agostino
Thank you. And if I, if I?

0:16:59.410 --> 0:17:3.410

Alex Webb
Mess up your name. I apologize. Want me commit?

0:17:7.80 --> 0:17:9.460

Alex Webb

Yes, Sir. Is this morning coming?

0:17:9.450 --> 0:17:10.30

Wamiq Hamid

That's correct.

0:17:10.780 --> 0:17:13.850

Wamiq Hamid

Uh, I'm with DMY and then getting consultants.

0:17:14.650 --> 0:17:15.340

Wamiq Hamid

And.

0:17:16.350 --> 0:17:18.990

Wamiq Hamid

As I understand this is the P3 project.

0:17:19.800 --> 0:17:39.70

Wamiq Hamid

And there are different ways that you know different companies are participating in this to this project.

Looks like this is with the from the owner side. So is there any list of the companies which are already conflicted out from submitting the to this bit?

0:17:40.630 --> 0:17:49.760

Wamiq Hamid

So you guys have that one or any potential bidders list, so that as a DBE company at a small business, we can approach those companies?

0:17:53.230 --> 0:17:54.830

Wamiq Hamid

The rear we're taking those.

0:17:55.90 --> 0:18:1.730

Alex Webb

Questions on a case by case basis and then we will be looking to formally respond to.

0:18:2.950 --> 0:18:9.340

Alex Webb

Questions related to conflict of interest sooner rather than later. ID as early as this week.

0:18:10.530 --> 0:18:15.810

Alex Webb

So for example, if the consultant was to ask a conflict of interest question.

0:18:17.130 --> 0:18:29.500

Alex Webb

But we would not include the the name of the consultant, but we would include the type of conflict being asked and then we would publish that to the public via an addendum in Emma.

0:18:29.920 --> 0:18:44.110

Alex Webb

Umm so so so feel free to ask those questions and then we will review those conflicts and and and and what is being asked and then public Republican response is as quickly as possible.

0:18:48.870 --> 0:18:50.840

Alex Webb

Sorry. So let me that we can send an e-mail.

0:18:51.620 --> 0:18:58.610

Wamiq Hamid

To this e-mail address, which is an RFP to ask specifically about a company or or a general list.

0:18:59.520 --> 0:19:0.990

Wamiq Hamid

And any any question.

0:19:0.990 --> 0:19:10.380

Alex Webb

Things related to the procurement can be asked through Emma and and instructions to that are included in the advertisement.

0:19:11.380 --> 0:19:19.210

Alex Webb

If a company has a question related to their specific conflict, they can ask that question.

0:19:20.430 --> 0:19:25.950

Alex Webb

Specifically providing details of why they may think of conflict exists, or you know, the more information.

0:19:26.570 --> 0:19:37.300

Alex Webb

Uh provided the better and then again the state will review that question and then we'll publicly respond after we've had a chance to, to, to consolidate all of those inquiries.

0:19:39.400 --> 0:19:41.410

Alex Webb

OK, alright, that's what probably.

0:19:41.490 --> 0:20:12.190

Wamiq Hamid

We can do that but like normally on you know in other agencies what we have seen for the projects like of this magnitude, normally they have a list already maintained that these companies have already been determined to have conflict of interest. So that it's easier for other companies to approach you know

the the only those which are not conflicted out. So that's what I would suggest and recommend request that if it is possible then that will be a big help for the small businesses.

0:20:13.830 --> 0:20:15.560

Wamiq Hamid

Understood. Thank you. And that.

0:20:16.460 --> 0:20:17.50

Alex Webb

Thank you.

0:20:21.350 --> 0:20:22.680

Alex Webb

Then tosh.

0:20:24.270 --> 0:20:26.360

Alex Webb

Santosh dhakal.

0:20:27.260 --> 0:20:28.370

Alex Webb

Yes, this is Santos.

0:20:28.400 --> 0:20:37.780

SANTOSH DHAKAL (Guest)

From new engineering I have a question regarding 28% DBE goal. My question is I think you you made it clear that they could use.

0:20:38.910 --> 0:20:48.360

SANTOSH DHAKAL (Guest)

DB DB approved subcontractors approved DBE subcontractors. My question is when, when? If there is a team and the team gets awarded the project?

0:20:49.460 --> 0:21:4.770

SANTOSH DHAKAL (Guest)

After being awarded, if they want to use other DB so have to approve DB subcontractors, can they use anyone that is DB approved and qualified to do the tasks or do they have to still send it to?

0:21:5.390 --> 0:21:8.280

SANTOSH DHAKAL (Guest)

For the ham, dot, for for the approval of that console time.

0:21:12.690 --> 0:21:14.910

SANTOSH DHAKAL (Guest)

Lisa, do you wanna comment on that?

0:21:16.20 --> 0:21:18.40

Alex Webb

The work good morning, first of all.

0:21:18.20 --> 0:21:52.520

Lisa Grant

Everybody. My name is Lisa artist Grant. I'm the DBE MBE program manager and business development manager here at State Highway and the Office of Equal Opportunity. Now with that introduction being said, so let me make sure that I understand your question. Are you asking if an approved meaning DBE firm that is certified in the m.directory? Are you asking if that firm may be submitted or are you asking if there is another approval process?

0:21:52.650 --> 0:21:56.560

Lisa Grant

On top of the certification requirement? No. What I'm asking.

0:21:56.560 --> 0:22:0.960

SANTOSH DHAKAL (Guest)

Is once the team is formed and the contract is awarded.

0:22:1.830 --> 0:22:17.580

SANTOSH DHAKAL (Guest)

They for some reason that that team could not perform some work, can they? Can they pick any approved DB subcontractor like an engineering consulting firm that is DB approved to perform that task or do they have to submit back to?

0:22:18.350 --> 0:22:24.760

SANTOSH DHAKAL (Guest)

M dot to replace or to add another soft contrast stop contractor to perform the project.

0:22:26.170 --> 0:22:27.770

SANTOSH DHAKAL (Guest)

So I think you're asking about.

0:22:27.770 --> 0:22:52.250

Lisa Grant

A revision. And so, yeah, so the the way in which are revision and approved revision would work is if for some reason as you said a firm is not able to perform who is on the initial approved plan, then the prime contractor would submit a revision request through the Office of Procurement.

0:22:53.290 --> 0:22:59.130

Lisa Grant

Well, actually they submitted through their project manager, but nonetheless they submit a revision request.

0:23:0.650 --> 0:23:12.700

Lisa Grant

And using certified DBE firms who are able to perform whatever the work is and it doesn't have to be the same work that the original firm was performing.

0:23:13.500 --> 0:23:23.630

Lisa Grant

But it just has to be work that is obviously required and the project and that they have the next code to do. So I do understand that's how we.

0:23:23.560 --> 0:23:27.510

SANTOSH DHAKAL (Guest)

Have been doing but in this there is exclusive language saying DB.

0:23:28.270 --> 0:23:50.300

SANTOSH DHAKAL (Guest)

Well, proposals must meet the established TB goal, but either their own forces or approved DBE subcontractors. Now when when it was clarified regarding the approved contractors, subcontractors just clearly said this DB should be solidified by the certified agency like m.inthestateofmaryland.

0:23:50.930 --> 0:24:2.600

SANTOSH DHAKAL (Guest)

So with this language my my clarification was regarding we we never saw this type of languages in in contract saying either their own forces or approved DB, some contractor. So my thinking is.

0:24:3.510 --> 0:24:11.20

SANTOSH DHAKAL (Guest)

Can they add subcontract translator on to the project even though they were not added when they phoned the team? That was my that was my question.

0:24:12.450 --> 0:24:15.320

SANTOSH DHAKAL (Guest)

Yes, they can. And when when it says.

0:24:15.290 --> 0:24:20.260

Lisa Grant

As with their own forces, that's meaning that it's a DBE prime contractor.

0:24:21.600 --> 0:24:27.170

Lisa Grant

And if it's DE prime contractor, they would count at 100%. OK, thank you.

0:24:27.800 --> 0:24:28.440

Lisa Grant

You're welcome.

0:24:30.970 --> 0:24:33.480

Lisa Grant

Thank you. Next we have Katrina love.

0:24:33.480 --> 0:24:34.740

Alex Webb

I lyles.

0:24:36.230 --> 0:24:38.500

Alex Webb

Hi, I'm Katrina with DMV.

0:24:38.690 --> 0:24:41.840

Katrina Lyles

Do you enterprises, we are MBDB firm.

0:24:42.840 --> 0:24:48.240

Katrina Lyles

I my question is, is this a new contract or is there an incumbent?

0:24:52.130 --> 0:24:53.290

Katrina Lyles

This is a new contract.

0:24:53.970 --> 0:24:54.360

Alex Webb

OK.

0:24:55.210 --> 0:24:56.920

Alex Webb

And I maybe Lisa may have.

0:24:56.920 --> 0:25:6.810

Katrina Lyles

Just answered this, but is there if a a DBE firm wouldn't be firm decides to pursue as a prom, how much does that count towards the goal?

0:25:8.200 --> 0:25:9.850

Katrina Lyles

They would count at 100%.

0:25:10.540 --> 0:25:17.930

Lisa Grant

OK, thank you. But we would strongly encourage that. They would also utilize other DBE firms.

0:25:19.520 --> 0:25:22.250

Lisa Grant

Of course, in addition to themselves, you're welcome.

0:25:25.290 --> 0:25:26.140

Lisa Grant

Thank you, Katrina.

0:25:28.600 --> 0:25:29.210

Lisa Grant

Samantha.

0:25:29.220 --> 0:25:30.130

Alex Webb

The safara.

0:25:31.810 --> 0:25:34.180

Alex Webb

Yes, hello, I'm with Primatch.

0:25:34.590 --> 0:25:46.960

Samantha Safara

Where a woman owned business doing construction and program management support, my question is about the training services that you mentioned. Is there any way you could elaborate on what kind of training that would be?

0:25:51.900 --> 0:25:53.150

Samantha Safara

Catherine, can you get that one?

0:25:59.960 --> 0:26:3.780

Catherine Agostino

You could you be more specific about the training or where that was mentioned.

0:26:7.720 --> 0:26:9.620

Catherine Agostino

Ohh it was mentioned in.

0:26:9.610 --> 0:26:11.520

Samantha Safara

In the scope.

0:26:15.180 --> 0:26:16.720

Catherine Agostino

And McCall mentioned it.

0:26:16.710 --> 0:26:20.630

Samantha Safara

That when he was running through the different services that would be needed.

0:26:29.380 --> 0:26:31.50

Samantha Safara

I could submit that in writing and then.

0:26:32.500 --> 0:26:32.830

Samantha Safara

That was.

0:26:32.790 --> 0:26:38.60

Catherine Agostino

Be helpful. OK, then we thank you. Sure to provide a comprehensive response. Thank you.

0:26:41.660 --> 0:26:42.530

Catherine Agostino
Thank you, Samantha.

0:26:43.210 --> 0:26:43.960

Catherine Agostino
For noise.

0:26:43.980 --> 0:26:44.290

Alex Webb
Chat.

0:26:44.370 --> 0:26:44.800

Alex Webb
3.

0:26:58.180 --> 0:27:0.210

Pranoy Choudhury
Why we can't hear you in person?

0:27:0.220 --> 0:27:0.690

Alex Webb
Speaking.

0:27:9.840 --> 0:27:13.970

Alex Webb
Can you hear me now? Looks like you. Just me. Yes, we can. Thank you. OK. Sorry about that.

0:27:14.360 --> 0:27:27.970

Pranoy Choudhury
Yeah, Pranoy Chaudhry, but the B engineering, Alex, my question was was more on the lines with what the the gentleman from DIY asked Will Meek as as as he mentioned there's there's other.

0:27:28.770 --> 0:27:57.770

Pranoy Choudhury
Of procurements other than the GCC which is through Transurban, or the design build team that is pursuing this P3 contract, and it'll be it'll be nice to get some clarity on which firms, which which, who is conflicted out and who is not to go after this BGC. And as you mentioned, I guess since it's a very specific question and time is limited here, you suggest us put something in writing and maybe you can respond to that.

0:27:59.660 --> 0:28:1.90

Pranoy Choudhury
Yes, and and we did.

0:28:1.860 --> 0:28:12.710

Alex Webb
Receive a recommendation to see if we could list it. If providing the list of conflicted parties so we have that noted right, we'll we'll discuss if that's an option as well. So OK.

0:28:13.640 --> 0:28:17.850

Alex Webb

Yes, it does. That does that help? Yes. Yes, it does. Thank you. Appreciate it. OK.

0:28:18.260 --> 0:28:18.880

Pranoy Choudhury

Thank you.

0:28:20.40 --> 0:28:20.450

Pranoy Choudhury

Alright.

0:28:23.220 --> 0:28:24.590

Pranoy Choudhury

You Murphy.

0:28:24.920 --> 0:28:30.900

Alex Webb

Andtechchange.com. Yeah, this is Umesh Murthy.

0:28:31.30 --> 0:28:33.860

umurthy transtecheng.com

Cranch Tech engineering I can you start off with your name and company please.

0:28:34.360 --> 0:28:36.10

Alex Webb

Yeah, it, Umesh murthy.

0:28:36.180 --> 0:28:39.80

umurthy transtecheng.com

With trans tech engineering consultants.

0:28:42.310 --> 0:28:42.940

umurthy transtecheng.com

OK, honey.

0:28:43.600 --> 0:28:46.30

umurthy transtecheng.com

Yeah, Murthy, commish, murthy.

0:28:47.970 --> 0:28:50.640

umurthy transtecheng.com

It's UMESH. It's my first name.

0:28:52.30 --> 0:29:6.190

umurthy transtecheng.com

Thank you. My question is, I hopped in from another meeting I was about 10 somewhere around 12 to 13 minutes late. Is there a transcription of the meeting that will we can refer to look into after everything is done?

0:29:8.520 --> 0:29:9.970

umurthy transtecheng.com
The meeting is being recorded.

0:29:10.520 --> 0:29:16.110

Alex Webb
And and we'll, we'll talk about that after the call. Internally would we'll discuss.

0:29:17.960 --> 0:29:20.350

Alex Webb
Either distributing it, attendance and so forth.

0:29:21.100 --> 0:29:23.630

Alex Webb
OK. And if not, at least the presentation?

0:29:23.830 --> 0:29:24.180

umurthy transtecheng.com
You know.

0:29:25.220 --> 0:29:25.490

umurthy transtecheng.com
OK.

0:29:29.0 --> 0:29:31.80

umurthy transtecheng.com
There, there's no presentation other than what's been.

0:29:31.40 --> 0:29:32.10

Alex Webb
Shared right now.

0:29:33.210 --> 0:29:43.790

Alex Webb
The procurement officer, McCall Davis, provided basically a recap of the advertisement and made introductions to to those that are participating from the state of the call.

0:29:45.110 --> 0:29:49.570

Alex Webb
We'll we'll look at seeing what we can to transcribe and and distribute.

0:29:50.600 --> 0:29:51.460

Alex Webb
OK. Thank you.

0:29:52.770 --> 0:29:53.440

Alex Webb
My pleasure.

0:29:54.850 --> 0:29:55.660

Alex Webb

Monty.

0:30:1.20 --> 0:30:2.10

Alex Webb

Monty guest.

0:30:13.530 --> 0:30:17.80

Alex Webb

Monteur muted that you're trying to speak.

0:30:21.250 --> 0:30:26.730

Alex Webb

Can you hear me? OK, now we can. Yes. Thank you. Sorry about the login information.

0:30:27.180 --> 0:30:41.360

Monty (Guest)

My name is Satish Korpe from Potomac engineers. Someone logged me in from our office. I have a couple of questions. Number one, I believe it's a three to five years contract open end contract.

0:30:42.530 --> 0:30:49.120

Monty (Guest)

There's number one years, five years. So it's like a ID IQ contract and there will be different task orders coming out of it.

0:30:50.340 --> 0:30:50.730

Monty (Guest)

Correct.

0:30:51.430 --> 0:31:0.960

Monty (Guest)

OK, now there is a possibility that it might be a multiple firm contract or only one firm will be given the whole entire contract.

0:31:1.960 --> 0:31:4.330

Monty (Guest)

It is 3 contracts.

0:31:5.40 --> 0:31:7.480

Alex Webb

For \$75 million each.

0:31:8.220 --> 0:31:11.490

Alex Webb

Not to exceed \$225 million.

0:31:12.790 --> 0:31:14.890

Alex Webb
For a five year duration.

0:31:15.570 --> 0:31:16.180

Alex Webb
OK.

0:31:16.830 --> 0:31:17.310

Alex Webb
And.

0:31:17.350 --> 0:31:21.930

Monty (Guest)
75 million is the same cost, not the construction cost my correct.

0:31:24.100 --> 0:31:26.430

Monty (Guest)
The the total, the total, the total.

0:31:26.530 --> 0:31:30.590

Alex Webb
Contract authority? Yeah. For the construction management services.

0:31:31.190 --> 0:31:32.660

Monty (Guest)
Not the construction cost.

0:31:33.900 --> 0:31:51.790

Monty (Guest)
OK. The last question is, are there any smaller portions reserved for small business reserve or DB or MB's that they will be advertised down the road, a smaller task orders only reserved for smaller firms?

0:31:55.0 --> 0:31:56.990

Monty (Guest)
But DBE goal for this.

0:31:57.0 --> 0:31:59.150

Alex Webb
Contract is is 28%.

0:32:0.80 --> 0:32:1.970

Alex Webb
And so those.

0:32:3.390 --> 0:32:8.80

Alex Webb
Offers who submit as a prime would work on.

0:32:9.280 --> 0:32:13.590

Alex Webb

Establishing teams to meet or exceed that 28% goal.

0:32:15.180 --> 0:32:17.140

Alex Webb

Ohh no, my question is.

0:32:17.120 --> 0:32:41.810

Monty (Guest)

Little different. The smaller firms cannot compete with the large firms on the technical side financial side and everything else. So would there be any smaller task orders? So let's say maybe up to \$500,000 or something reserved for small business reserve SBR or BBMB firms, so they can also get a direct contract with the agency.

0:32:49.460 --> 0:32:51.580

Monty (Guest)

So I understand you. Yeah, at least.

0:32:51.540 --> 0:32:52.220

Alex Webb

That.

0:32:53.0 --> 0:32:55.710

Alex Webb

But I appreciate your time. How how would they have an opportunity to?

0:32:55.680 --> 0:32:58.720

Monty (Guest)

Grow if they just be a subcontractor. The rest of their life.

0:32:59.480 --> 0:33:27.150

Monty (Guest)

You have to have some portion allocated to only for small business or for the what you call minority business DB. No matter how small they are. But if there are then they have an opportunity to have direct contact with the agency and they will be more responsible and responsive and grow. Otherwise they will just remain at the mercy of the larger firms as a small business partner.

0:33:28.530 --> 0:33:30.130

Monty (Guest)

So these contracts.

0:33:30.210 --> 0:33:32.940

Lisa Grant

Are not designated as a VE.

0:33:34.390 --> 0:33:45.20

Lisa Grant

And definitely not SBR. SBR speaks to state funded contracts. SES for is for federal, but these contracts are not designated as speed E.

0:33:46.740 --> 0:33:54.200

Lisa Grant

We are there like like Alex said there is a 28% DBE goal.

0:33:55.750 --> 0:33:57.930

Lisa Grant

There are definitely other.

0:33:59.380 --> 0:34:0.240

Lisa Grant

Contracts.

0:34:1.980 --> 0:34:5.30

Lisa Grant

That would probably be more desirable.

0:34:5.690 --> 0:34:13.800

Lisa Grant

If a firm is not able to bid on this one as an as as a DBE prime.

0:34:15.100 --> 0:34:17.980

Lisa Grant

So this this the there will not practically.

0:34:17.960 --> 0:34:44.950

Monty (Guest)

Because the scope is much larger financially and wise and experience wise, we all know that. And unless you open up for smaller businesses, some small portion, a smaller task order, then they have an opportunity to bid and get some work themselves. That's all I'm requesting. And I'm doing this for 25 years, same request I make every time, but it hasn't changed much.

0:34:45.640 --> 0:34:48.330

Monty (Guest)

Thank you. Yeah. So that at a high level.

0:34:49.500 --> 0:35:12.50

Alex Webb

Our office pushes out, you know, one point, five \$1.7 billion in contract authority. And for this contract, it's three contracts totaling \$225 million, of which 28 percent is designated for DBE. That's about \$63 million designated specifically for DBE and so.

0:35:13.840 --> 0:35:23.820

Alex Webb

That that may be a better conversation outside of this pre proposal meeting, but the the state does do about that has a lot of it's only if they are selected by the.

0:35:23.800 --> 0:35:27.840

Monty (Guest)

I get problems if they're not the teams and they have no chance.

0:35:28.880 --> 0:35:29.630

Monty (Guest)

Opportunity.

0:35:30.500 --> 0:35:32.890

Monty (Guest)

Yeah, we, we I think we we can talk.

0:35:32.910 --> 0:35:37.540

Alex Webb

About that, uh, maybe offline, but I I appreciate that question.

0:35:39.490 --> 0:35:45.240

Alex Webb

Thank you. Alright. My pleasure. We'll move on to call Pat Talboti.

0:35:47.90 --> 0:35:49.210

Alex Webb

OK, thank you. This is Carl Bartley from my.

0:35:49.200 --> 0:36:4.840

Kal Bhatti (Guest)

Not architects and engineers. I have two questions. First of all, I piggyback on the last question from I believe from Monty. Ohh if the I mean that's good that Hamby said that could be the prime.

0:36:5.880 --> 0:36:8.870

Kal Bhatti (Guest)

There's no way that MB could be the prime for this large.

0:36:8.970 --> 0:36:22.780

Kal Bhatti (Guest)

And the seven \$25 million contract, it wouldn't be MBA from because of the financial capability required for this contract. My original contract question was this, this is kind of a confusing.

0:36:23.320 --> 0:36:49.0

Kal Bhatti (Guest)

Ohh MB lesson with Lisa Grant said that if MB self performs it will be 100% counted. That's new.

Generally state law is it will be counted 50% at the MBE goal and I heard earlier. If I'm correct for this contract, self performing MB will be only counted 10%.

0:36:49.640 --> 0:36:53.650

Kal Bhatti (Guest)

No, I have a 2-3 different statements for you clarify about that.

0:36:55.240 --> 0:36:56.740

Kal Bhatti (Guest)

Absolutely so.

0:36:57.70 --> 0:37:2.210

Lisa Grant

If I am not mistaken Alex correct me or or Catherine correct me if I'm if I'm wrong.

0:37:3.100 --> 0:37:6.340

Lisa Grant

This contract is federally funded, correct?

0:37:7.160 --> 0:37:16.960

Lisa Grant

That's so federal. So for federally funded contracts, DBE, prime participation counts at 100%.

0:37:17.750 --> 0:37:25.860

Lisa Grant

For state funded contracts, MBE prime participation counts at.

0:37:26.730 --> 0:37:27.670

Lisa Grant

50%.

0:37:28.310 --> 0:37:30.240

Lisa Grant

So that may be where.

0:37:31.530 --> 0:37:49.980

Lisa Grant

Some confusion is is coming into play here, so it's very important that we make sure that we're referencing the correct program and the program relative to this project. As I mentioned, since it's federally funded is the DBE program.

0:37:51.160 --> 0:37:56.580

Lisa Grant

So that could be Umm you know, as I said, that could be where some of the confusion is coming into play.

0:37:57.840 --> 0:37:59.790

Lisa Grant

And what was the 10%?

0:37:59.780 --> 0:38:2.470

Kal Bhatti (Guest)

There's something earlier, something I misunderstood.

0:38:4.710 --> 0:38:5.940

Kal Bhatti (Guest)

I don't know.

0:38:6.930 --> 0:38:7.760

Kal Bhatti (Guest)

Someone reference.

0:38:8.20 --> 0:38:9.490

Alex Webb

10% to be honest.

0:38:10.520 --> 0:38:11.130

Alex Webb

I heard.

0:38:13.200 --> 0:38:20.40

Lisa Grant

I think he was just mistaken when he mentioned it earlier. I did hear him mentioned 10%, but that was just a mistake.

0:38:20.830 --> 0:38:25.740

Lisa Grant

It is 100% baby pram participation. That would count toward the goal.

0:38:28.910 --> 0:38:30.700

Lisa Grant

OK. Thank you. I'll just support them.

0:38:30.680 --> 0:38:47.40

Kal Bhatti (Guest)

After the earlier comment is a \$75 million contracts and no SB subcontract with every sport states supporting very strongly as we participation and I will you know.

0:38:47.850 --> 0:38:56.240

Kal Bhatti (Guest)

Of ask for that, reconsidering that to have, at least for it's a three large contracts. Should we have at least one SV contract?

0:38:57.220 --> 0:38:57.870

Kal Bhatti (Guest)

Thank you.

0:39:0.450 --> 0:39:0.930

Kal Bhatti (Guest)

Thank you.

0:39:2.130 --> 0:39:3.360

Kal Bhatti (Guest)

Next we have.

0:39:4.640 --> 0:39:5.410

Alex Webb

Is the best.

0:39:14.620 --> 0:39:16.860

Kal Bhatti (Guest)

Thank you, Alex. Uh, this is Sheldon from zest.

0:39:16.960 --> 0:39:29.850

ZEST

Ohh, just a quick question here. Like uh for the MBDB firms, will they be conflicted out if they are on the design build team P3 team?

0:39:31.710 --> 0:39:33.70

ZEST

Is there any policy for that?

0:39:36.430 --> 0:39:37.200

ZEST

Yeah, great question.

0:39:37.220 --> 0:40:8.420

Alex Webb

So we had a couple of questions regarding conflicts. So our response was to submit those questions to us via Emma and we will be posting an addendum specifically addressing examples of those conflicts of interest quite quickly. And then the second thing to note is we, we received a request, if it'd be possible to list a group of companies that are conflicted and see if we can get that published. So that is something that that we have as as a take away and we'll have to.

0:40:8.510 --> 0:40:9.240

Alex Webb

And discuss.

0:40:10.520 --> 0:40:12.650

Alex Webb

Thank you. Our when do you expect?

0:40:12.670 --> 0:40:13.160

ZEST

To that.

0:40:13.240 --> 0:40:13.590

ZEST

Uh.

0:40:14.20 --> 0:40:16.900

ZEST

A design build contract will be awarded.

0:40:20.770 --> 0:40:22.0

ZEST

The Transurban side.

0:40:24.30 --> 0:40:25.340

ZEST

I I can't speak to that.

0:40:26.450 --> 0:40:27.840

Alex Webb

OK. Thank you.

0:40:29.70 --> 0:40:29.810

Alex Webb

Yeah, my pleasure.

0:40:32.830 --> 0:40:35.380

Alex Webb

Uh John petrowski.

0:40:36.270 --> 0:40:37.920

Alex Webb

Yes, thank you, Alex, I have.

0:40:37.890 --> 0:40:47.930

Huchrowski, John

Two questions and the first is, is it state highways intent to use all three of these contracts to manage AM partners 495 to 70 project?

0:40:51.690 --> 0:40:53.740

Huchrowski, John

Ohh Catherine, can you take that?

0:40:55.370 --> 0:40:55.700

Alex Webb

Yes.

0:40:56.390 --> 0:40:59.940

Catherine Agostino

And they're all anticipated to be used task based.

0:41:0.730 --> 0:41:1.370

Catherine Agostino

Assignment.

0:41:2.870 --> 0:41:4.920

Catherine Agostino

This is a follow up on medium beat up the answer.

0:41:4.880 --> 0:41:12.340

Huchrowski, John

To this either, but the I'm assuming there'll be sectioned off. Each GEC has a certain corridor, or is there anything?

0:41:13.160 --> 0:41:14.280

Huchrowski, John

And groundwork on that yet.

0:41:16.630 --> 0:41:17.20

Huchrowski, John

That's not.

0:41:16.980 --> 0:41:17.860

Catherine Agostino

Been determined yet?

0:41:19.360 --> 0:41:20.910

Catherine Agostino

And last question real quick.

0:41:21.90 --> 0:41:32.900

Huchrowski, John

Umm, the current GEC, I guess it's 2018 it's accept to expire in 2024. Will there be any relationship between these GEC you're putting out now and that one?

0:41:34.460 --> 0:41:41.10

Huchrowski, John

Or just one replace the other. These three will play through one or will the original 2018 contracts do?

0:41:41.810 --> 0:41:44.0

Huchrowski, John

Have some sort of role on the projects.

0:41:48.350 --> 0:41:51.720

Catherine Agostino

There'll be a transition to continue the services to the future.

0:41:53.530 --> 0:41:53.900

Catherine Agostino

Thank you.

0:42:1.470 --> 0:42:3.190

Catherine Agostino

Thank you. Next and.

0:42:3.840 --> 0:42:4.450

Alex Webb
What's your?

0:42:6.640 --> 0:42:11.730

Alex Webb
Battling with folks who are competing with me to share my share screen. So please.

0:42:13.220 --> 0:42:15.600

Alex Webb
No, don't attempt to share your screen.

0:42:16.720 --> 0:42:17.550

Alex Webb
During this meeting.

0:42:18.410 --> 0:42:22.860

Alex Webb
Next we have Dan Williams. Hey, good morning, Dan Williams.

0:42:23.0 --> 0:42:37.220

Dan Williams
EXPS services. So as everyone knows, there's a lot of people chasing chasing the phase A and Phase B contracts and we don't know anything as far as award.

0:42:37.800 --> 0:42:54.730

Dan Williams
Umm my question more or maybe even a comment for your consideration when you're reviewing the precluded firms is how is the intent to award going to be considered when that's not really contract award?

0:42:55.450 --> 0:43:8.720

Dan Williams
And my concern is that there could be a shift in project priorities with the new coming administrations political administrations.

0:43:13.570 --> 0:43:15.420

Dan Williams
I'm sorry. Can you can you?

0:43:16.610 --> 0:43:20.100

Alex Webb
State that is the question, and apologies if I so.

0:43:22.160 --> 0:43:29.370

Dan Williams
How are you handling the firms that should win a phase or Phase B contract?

0:43:30.150 --> 0:43:32.740

Dan Williams

That is intent to award.

0:43:33.640 --> 0:43:38.190

Dan Williams

But the project will not be awarded till spring of next year.

0:43:39.50 --> 0:43:46.870

Dan Williams

So how are those firms going to be considered for preclusion from this contract?

0:43:47.530 --> 0:43:50.480

Dan Williams

When we will not know if we're awarded till next year.

0:43:53.440 --> 0:43:54.490

Dan Williams

Is that any clearer?

0:43:56.200 --> 0:43:58.10

Dan Williams

I'll I'll ask Kathy.

0:43:58.30 --> 0:44:0.880

Alex Webb

Trying to see if she can respond to that.

0:44:6.780 --> 0:44:7.150

Alex Webb

Uh.

0:44:7.620 --> 0:44:9.690

Catherine Agostino

It'll have to be determined at the time that.

0:44:12.480 --> 0:44:22.120

Catherine Agostino

During within this procurement, so from we'll have to make business decisions. I guess if I could also bring attention on page 8 of the RSP, it does. There is a paragraph.

0:44:24.30 --> 0:44:26.400

Catherine Agostino

About a potential conflict of interest.

0:44:26.470 --> 0:44:29.970

Catherine Agostino

That's that's helpful to anyone. I know there's different.

0:44:31.180 --> 0:44:34.300

Catherine Agostino

Situation that are that can present themselves.

0:44:36.170 --> 0:44:37.840

Catherine Agostino

But this this address is.

0:44:38.710 --> 0:44:40.990

Catherine Agostino

Relationships with the the P3.

0:44:41.960 --> 0:44:42.440

Catherine Agostino

Face.

0:44:43.190 --> 0:44:44.240

Catherine Agostino

Developers.

0:44:45.500 --> 0:44:47.920

Catherine Agostino

And and their team so.

0:44:50.370 --> 0:44:51.180

Catherine Agostino

Is that helpful?

0:44:55.680 --> 0:44:55.850

Catherine Agostino

Uh.

0:44:56.420 --> 0:45:0.550

Dan Williams

Not completely, but maybe I'll ask. Well, I will ask the question.

0:45:1.150 --> 0:45:6.540

Dan Williams

Umm, in writing and then maybe you can respond to that. Maybe it'll be a little easier that way.

0:45:7.420 --> 0:45:7.890

Dan Williams

Thank you.

0:45:10.120 --> 0:45:10.690

Dan Williams

Thank you.

0:45:15.40 --> 0:45:17.30

Dan Williams

Alright, I don't have any additional.

0:45:17.220 --> 0:45:29.150

Alex Webb

Hands raised so as a reminder, if there's anybody else that has a question in the top right hand corner of your screen under reactions, there is an option to raise your hand.

0:45:30.140 --> 0:45:33.950

Alex Webb

Please raise your hand if if you have any questions relating to this.

0:45:54.360 --> 0:46:2.970

Alex Webb

OK. Well, I think that that may be all of the questions for this meeting. McCall, I'll turn it back over to you to close this out.

0:46:9.300 --> 0:46:10.900

Alex Webb

Excuse me, can you run?

0:46:10.910 --> 0:46:24.670

Monty (Guest)

By the calendar again, when the job will be advertised and when the bids will be due, when the submission will be due to for this project when the contract award is made. Unless you're gonna e-mail us that information again.

0:46:25.600 --> 0:46:26.880

Monty (Guest)

And keep us up.

0:46:27.610 --> 0:46:29.120

Monty (Guest)

Yeah. So, uh, if if.

0:46:29.70 --> 0:46:51.230

Alex Webb

You can see my screen here. I did include the MID for you all to reference the the the solicitation was advertised on July 21st and the call I'll ask you to repeat the the technical question deadlines and and other due dates related to this that you discussed the start of this meeting please.

0:46:52.80 --> 0:46:54.480

Alex Webb

Ohh no, I cannot see the screen but.

0:46:54.630 --> 0:46:59.850

Monty (Guest)

I will check the e-mail website, maybe that will have some information.

0:47:0.880 --> 0:47:2.730

Monty (Guest)

I cannot see the screen and I'll I'll.

0:47:3.600 --> 0:47:6.150

Alex Webb

OK. Can everyone can you can anyone else see my screen?

0:47:8.340 --> 0:47:10.470

Alex Webb

So now what's on your screen is.

0:47:10.730 --> 0:47:11.760

Macall Davis

All of the.

0:47:13.440 --> 0:47:14.310

Macall Davis

Participants.

0:47:15.470 --> 0:47:17.640

Macall Davis

That's odd because what I?

0:47:17.680 --> 0:47:20.270

Alex Webb

What it says I'm sharing and it's different.

0:47:21.760 --> 0:47:23.510

Alex Webb

OK, I'll put the.

0:47:24.290 --> 0:47:26.190

Alex Webb

My apologies for that, I'll put the.

0:47:27.430 --> 0:47:29.0

Alex Webb

MID in chat right now.

0:47:30.70 --> 0:47:38.0

Alex Webb

And then you can also use an Emma. You can query any procurement based off of contract title.

0:47:39.40 --> 0:47:55.60

Alex Webb

Emma ID number or the BCS number? So BCS 2020 209 or BB, as in Bravo P as in Paul M as in Mike 030753 is the mid.

0:47:57.210 --> 0:48:3.420

Alex Webb

But the call for good measure. Would you mind just repeating those due dates that you started us off with, please?

0:48:4.110 --> 0:48:6.510

Alex Webb

I will so as this guy.

0:48:6.510 --> 0:48:26.790

Macall Davis

Best earlier. Uh again, please, if you have any additional questions or anything that was not mentioned here, we do want you to submit those questions to the Emma questions and discussions board so that we can receive them and answer them in a timely manner via addendum.

0:48:27.790 --> 0:48:47.240

Macall Davis

And that will be as of August 17, 2022 is what we're trying to get that information out to you. The last day for written questions is August 17th, 2022 by 12:00 PM. The request for technical proposals are due by noon on September 14th, 2022.

0:48:47.780 --> 0:49:8.160

Macall Davis

And if you have any other questions, please feel free to make sure you get those into words via Emma. If there was a question that you want that you did not get answers clearly today, please reference through Amit that question so that it can be taken care of and answer in a due and diligent manner.

0:49:8.610 --> 0:49:31.980

Macall Davis

Umm. If there is no other questions pertaining to the pre proposal meeting today, we would like to thank each and everyone of you for participating today and we welcome you to taking part in the process and we look forward to hearing from you when going over all of your information as you submit. I wanna thank you once again and contain up a great rest of your day.

0:49:33.910 --> 0:49:34.640

Macall Davis

Thank you all.

0:49:37.150 --> 0:49:37.640

Macall Davis

Thank you.

0:49:41.260 --> 0:49:41.720

Macall Davis

Thank you.

0:49:43.970 --> 0:49:44.660

Macall Davis

Thank you.

0:49:48.50 --> 0:49:50.350

SANTOSH DHAKAL (Guest)

Thank you. Thank you.

0:49:52.880 --> 0:49:53.370

SANTOSH DHAKAL (Guest)

Thank you.

0:49:55.130 --> 0:49:55.640

SANTOSH DHAKAL (Guest)

Thank you.

0:49:57.450 --> 0:50:3.650

SANTOSH DHAKAL (Guest)

Before going, I just wanted to ask, we didn't do the attendance of this thing, is it will you pull the raster from from the?

0:50:4.570 --> 0:50:7.850

SANTOSH DHAKAL (Guest)

Partnership is on list or how do you do that in this?

0:50:14.870 --> 0:50:15.660

Matt Abel

Alex, you're muted.

0:50:32.10 --> 0:50:34.620

ENAMIDEM (Guest)

Yeah. Sorry. Can you hear me now? Yes.

0:50:36.230 --> 0:50:37.880

ENAMIDEM (Guest)

Sorry, my computer's.

0:50:38.70 --> 0:50:38.620

Alex Webb

What she.

0:50:40.540 --> 0:50:47.170

Alex Webb

Yeah, we're, we're we're gonna download the attendance for this meeting, which is what I actually I just completed so.

0:50:49.500 --> 0:50:55.70

Alex Webb

OK. OK. Thank you all. Take care. I'm gonna end the recording and and drop off here.
