Traffic Control

## **NOTICE**

Beginning at 5:00am Saturday 4/15/23 (weather permitting), Johnson Crane Service, Inc. will place a crane in the roadway to hoist an HVAC unit to the building located at 1400 East West Hwy (MD 410). The work will close two (2) westbound lanes of East West Hwy between Draper Lane and Colesville Road leaving one travel lane for through traffic on the east bound side of East West Hwy. The work should be complete and all lanes of traffic reopened no later than 11:00am.

The sidewalk within the work zone closest to 1400 East West Hwy will be closed during hoisting and pedestrians may be directed to the safest crosswalks within the work zone via flagmen and signage. The safest crossings may include those on the opposite side of the street. Motorists and pedestrians should travel undistracted through the work zone and be aware of changing traffic and pedestrian traffic patterns inside the work zone.

If you have any questions or concerns please contact Brendan Burns, President, Metropolitan Permit Services at 301-351-0484 or [Brendan@metropermit.com](mailto:Brendan@metropermit.com)
