Hydraulic Design Criteria for Structures in FEMA Flood Plain	Approval: 

All new and/or rehabilitated hydraulic structures on the State Highway system and on County Roads in Counties having the 100 year Federal Flood Insurance shall be designed so as not to cause any increase in the Water Surface Elevation of the "100 year Flood" for the waterway and its flood plain affected by the proposed construction; therefore, the design storm for the above indicated location shall be a "100 year Storm" for existing conditions as opposed to ultimate development as per existing zoning.
