National Scenic Byways Funds Overview

The Maryland State Highway Administration (SHA) is pleased to invite the Maryland’s Byways community to submit National Scenic Byway preliminary applications for FY10 byway funds, with a deadline date of 2 p.m. on March 12, 2010. These funds, administered by the Maryland State Highway Administration, have the potential to bring numerous heritage tourism-related improvements across the State. Some of these improvements will enable communities to nominate their byways as National Scenic Byways or All-American Roads. The National Scenic Byway and All American Road Designations were established as part of the National Scenic Byways Program as a way to increase tourism, stimulate local economies and protect distinctive assets along byways in addition to identifying the country’s most scenic and historically significant roads.

Funding

The Federal Surface Transportation Equity Act authorizes funds each year for the National Scenic Byways Program. The FHWA will continue to be open to more strategic investments in its FY 2010 National Scenic Byways Program grant awards process by targeting its resources toward projects that provide the greatest benefits. The FHWA is particularly focusing on projects with substantial benefits and invites sponsors to submit multiple projects within one application that provides strategic benefits within the National Scenic Byways Program. These Federal funds administered by the State Highway Administration (SHA) are available for up to 80% of the project cost, matched by at least 20% funding from the project sponsor. Byways can be sponsored by a county or municipal government, a private non-profit agency, or a community group.

Principles and Practices for Eight Categories of Eligible Project Activities

There are eight categories of eligible project activities. After reviewing the FY 2009 Grant Information, select the category that most completely reflects what will be accomplished by the proposed project. Respond to the Principles, Practices and “Complete Applications Include” sections of these instructions for the selected category as you prepare your application (see pages 14 through 34). The electronic application form will include additional statements to help applicants focus their proposals. See http://www.bywaysonline.org/grants/.

List of Grant Categories:

1. State and Tribal Programs
2. Corridor Management Plan
3. Safety Improvements
4. Byway Facilities
5. Access to Recreation
6. Resource Protection
7. Interpretive Information
8. Marketing Program
Matching Requirements

Required funding participation by the project sponsor is known as the “match.” Match activities must be directly related to the proposed Scenic Byways Program project. Please visit the following web site for more information: www.bywaysonline.org/grants.

The project sponsor must provide a minimum match of 20 percent of the funding for those portions of the overall project that qualify for funding (cash is preferred over in-kind donations).

In-Kind Donations:

- The value of in-kind donations may be accepted as the State match when they are directly associated with the scenic byway project and the period during which it is undertaken. The in-kind donations include services, property, materials, and equipment. Donated services may be accepted from private sources but not government agencies.

- While government services may not be donated or credited toward the match, a government agency can be reimbursed for up to 80% of its expenses, including salaries, directly related to the scenic byways project.

Basic Application Requirements

Your project must be on a National Scenic Byway, All-American Road, State designated byway with a corridor management plan (CMP), or applying for CMP funds or note that a CMP will be 50% complete within the time frame that the project being applied for will be implemented.

Visit SHA’s website for details, concerning the location of Maryland’s Scenic Byways at: http://www.marylandroads.com/exploremd/oed/scenicByways/scenicbyways.asp?id=H14+H12

Also, if your proposed project is along a byway with a corridor management plan, please coordinate with the following byway managers:

**Application Review and Approval Process**

Eligible applications with complete information will be reviewed by the Scenic Byways Advisory Committee, which consists of staff representatives from the State Highway Administration, Office of Tourism Development, Maryland Department of Planning, and Maryland Department of Natural Resources. Applications are located at [http://www.bywaysonline.org/grants/](http://www.bywaysonline.org/grants/). Please submit 1 (one) online and 1 (one) original application, by the aforementioned deadline to:

Terry Maxwell  
Maryland Byways  
State Highway Administration  
707 North Calvert Street  
Baltimore, MD 21202  
(p) 410-545-8637  
(f) 410-209-5003  
emaxwell@sha.state.md.us

**Project Selection Criteria**

Applications will be reviewed using administrative criteria. The administrative criteria are outlined under the nine headings below or go to [http://www.bywaysonline.org/grants/application/information/](http://www.bywaysonline.org/grants/application/information/). Each eligible project must be within the corridor of a State or National Scenic Byway or All American Road. Each eligible project must be consistent with the CMP for that byway, or is intended to foster the development of such a plan. Projects proposed along managed byways and/or certified heritage areas must be coordinated with the byways/heritage area management entities.

**Administrative**

The following criteria are used in the consideration of projects for funding under the National Scenic Byways Program:

1) **Greatest Strategic Benefits:** Funding will be targeted toward projects that provide the greatest strategic benefits. FHWA is particularly focusing on projects with demonstrated benefits for the byway traveler and invites the application of large-scale, high-cost projects that provide strategic benefits to the byway.
2) **State, Indian Tribe and Byway Priorities:** The Priority ranking of projects is a key factor in selecting projects for funding.

3) **Project Benefits:** A project should benefit the byway traveler, whether it will help manage the intrinsic qualities that support the byway’s designation, shape the byway’s story, interpret the story for visitors, or improve visitor facilities along the byway. The proposed amount of National Scenic Byways Program funds should be proportionate to the proposed project’s benefits to byway travelers. FHWA expects an applicant advancing a project benefiting the general public to propose a larger share of non-byways funds.

4) **Projects Meeting Critical Needs:** FHWA encourages States and Indian tribes to give priority consideration to projects meeting critical needs on National Scenic Byways and All-American Roads relative to needs on State or Indian tribe scenic byways. Critical needs include activities to build and strengthen a sustainable organization, to manage byway activities, and to implement projects or other initiatives.

5) **Funding Expenditures:** States, Indian tribes and byways showing greater progress toward the completion of prior approved projects are considered better candidates for project selection.

6) **Ready to Implement:** Projects that can be obligated and begin soon after authorization to proceed are given preference. Obligating funds is the first step in ensuring the timely use of byways funds and fulfilling the **Funding Expenditures** criteria.

7) **Leveraging of Private or Other Public Funding:** Commitment of other funding sources to complement requested byway funding to enable more projects to be funded.

8) **Complete Applications:** FHWA determines project eligibility based on the information provided in the submitted application and the attachments. Applications may be found ineligible based on a lack of information provided or insufficient information describing the relationship of the proposed project to the byway and the benefit to byway travelers.

9) **Other Considerations:** Application selection will consider Congressional direction or guidance provided on specific projects or programs. Note: For information on FHWA discretionary programs, visit [www.fhwa.dot.gov/discretionary. FY 2009](http://www.fhwa.dot.gov/discretionary. FY 2009)

**Principles & Practices for 8 Categories of Eligible Project Activities**

There are eight categories of eligible project activities. After reviewing the FY 2010 Grant Information located at [http://www.bywaysonline.org/grants/application/information/](http://www.bywaysonline.org/grants/application/information/), select the category that most completely reflects what will be accomplished by the proposed project. Respond to the Principles, Practices and “Complete Applications Include” sections of these instructions for the selected category as you prepare your application. The electronic application form will include additional statements to help applicants focus their proposals.
