

## **MEMORANDUM**

**TO:** Users of the Material Quality Assurance Processes Manual  
Users of the Materials Management System

**FROM:** Woodrow Hood, Chief *Woody Hood*  
Materials Management Division

**DATE:** May 05, 2017

**SUBJECT:** Revisions to the Material Quality Assurance Processes Manual and Materials Management System

The following changes have been made to the Material Quality Assurance Processes Manual and the Materials Management System.

### **General Items**

#### **Asphalt Technology Division Items**

- The new material “CRS-1h (Tack Coat)” has been added to the category Emulsified Asphalts, Tack Coat
- TT-Anionic and TT-Cationic (Trackless Tacks) have been merged into one material type called Non-Tracking Tack Coat.

#### **Soils and Aggregates Technology Division Items**

- Bioretention Soil Mix (BSM) has been moved into the Soil Materials, Furnished Landscaping Soils category.

#### **Structural Materials and Pavement Markings Items**

- The material Snow-Plowable Raised Pavement Marker Castings is now called Snow-Plowable Raised Pavement Marker Holders.
- According to new Maryland Specifications, the materials Primer for Asphalt Waterproofing and Primer for Waterproofing Sheeting from SM Group 2 can no longer be used on Maryland State Roadways.

The Material Quality Assurance Manual may be found through the “Material Quality Resources” internet page at: <http://www.roads.maryland.gov/Index.aspx?PageId=51&d=31>
