**AADT, AAWDT & CLASS AADTS FOR 2019**

This report reflects the Annual Average Daily Traffic (AADT), Annual Average Weekday Traffic (AAWDT) & Class AADTs by road segments in Maryland for 2019. It contains the route, road name, beginning and ending mile point, location description (description of the road segment for which the AADT applies), location ID, AADT, AAWDT, AADTs of Motorcycles, Cars, Light Trucks, Buses, Single Unit Trucks & Combination Unit Trucks. The report is sorted by county, route, and mile point in ascending order.)

Stations denoted by a "P" followed by a four-digit number, contain data collected from Automatic Traffic Recorders (ATR's). These ATR's collect length, volume and/or classification data, which is then downloaded, loaded into a database and validated daily. Stations denoted by a "T" followed by a four-digit number, contain data provided by Maryland Transportation Authority.

Stations denoted by a "B" or "S" followed by a multiple-digit number, contain data from Maryland's portable count program. The portable count program only collects volume and/or classification data, which is manually validated and loaded. The data for these stations is collected on a three or six-year cycle depending on the roadway. Growth Factors are applied to counts which were not taken during the current year.

The AADT & AAWDT data contained in this report is estimated. The AADT estimates are derived by taking 48-hour machine count data and applying factors from permanent count stations. The AAWDT is an estimate of the weekday traffic from Monday through Friday. We have 6 Classification groups according to Federal Highway Administration (FHWA Classes 1-13), Motorcycles(1), Cars(2), Light Trucks(3), Buses(4), Single Unit Trucks(5-7), Combination Trucks(8-13).

A special numeric code was added to the AADT numbers, starting in 2006, to identify the years when the count was actually taken. The last digit represents the number of years prior to the actual count. Where "0" represents the current year when data was collected (in 2019), "1" represents the count taken in 2018, "2" represents the count taken in 2017, "3" represents the count taken in 2016 and so forth.
