State Police Medevac helicopters can quickly reach anyone in Maryland to provide life-saving services. Since 1970, Maryland State Police crews have flown more than 150,000 victims to trauma and specialty care centers.

ZERO DEATHS MARYLAND Welcome to Maryland, where your safety is our top priority!
Because every life counts, please partner with us in the
Toward Zero Deaths effort and make roadways safer for everyone

Buckle Up! - Everyone, all ages, all seats. Maryland law requires that everyone, regardless of age, wear a seat belt, including adults in the back seat. Children under age 8 must be secured in a child safety restraint/seat. Children must be kept rear-facing until at least 2 years of age, unless the child meets or exceeds the height and weight on the seat's guidelines. Visit mdkies.org or call 1-800-370-SEAT (7328).

Slow Down - Speeding kills. Stay alert and obey posted speed limits, especially in work zones. In certain Maryland work zones, speed limits are photo-enforced for your safety.

Always Drive Sober - In Maryland, a driver can be arrested for DUI with a Blood Alcohol Concentration (BAC) of .08 or for DWI with a BAC of .07.

Share The Road - With Everyone!
Stop for pedestrians in crosswalks and intersections.
Expect and respect bicyclists on Maryland roadways and give three feet of space when passing.
Bicycles have the right of way.

Move Over Maryland - Maryland law requires you to move over and slow down when approaching from the rear any stopped, standing or parked vehicle displaying hazard warning lights, road flares or other caution signals.

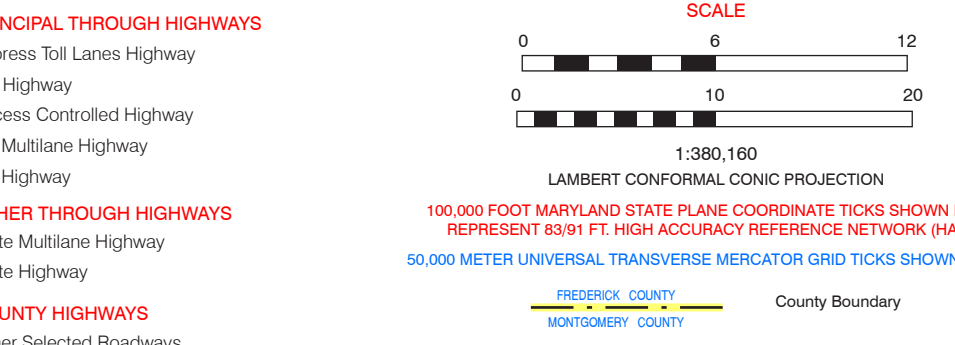

Move It - If involved in a property damage only crash, move vehicle(s) out of travel lanes. Exchange personal insurance, license and registration information.
